
International Programmes

The **Research Administration Office** at FHS CU provides support for members of the academic staff who apply for international grants and for those whose grant proposals were already successfully admitted. Please deliver all relevant information about **your project** to our office **in time** (at least three weeks before the final submission). It's also appropriate to **consult individually** about the whole process.

There are useful pieces of information on websites of **European Centre of CU**, **Technology Agency of the Czech Republic**, **Czech National Agency for International Education and Research** and website of **Horizon Europe** programme.
